

# CERTIFICATE

## OF ACHIEVEMENT

THIS CERTIFICATE IS PRESENTED TO

**Ariel Barrientos Torres, DDS**

by the International Academy of Oral Medicine & Toxicology

*Based on scientific research, the IAOMT has developed rigorous recommendations for removing existing dental mercury amalgam fillings to assist in reducing the potential negative health outcomes of mercury exposure to patients, dental professionals, dental students, office staff, others, and the environment. The IAOMT's recommendations are known as the Safe Mercury Amalgam Removal Technique (SMART). Dentists who have obtained SMART certification from the IAOMT have successfully completed coursework related to mercury and the safe removal of amalgam fillings.*
